To Whom It May Concern,

Brandi Cameron was a student of my Digital Imaging 1 course at Nashville State Community College. She was one of those students who shined so brightly with talent, beauty, personality, creativity and dependability that you'd never forget her. Brandi was one of those students a teacher prays to have in the classroom. She devours information and not only learns quickly, but has the ability to transpose newly learned skills into different aspects of design—great design! She always went the extra mile.

When one of my professional photographer friends was looking to hire another associate only one name came to my mind—Brandi Cameron! In the time that has lapsed between Brandi being one of my students and now, she has taught herself many more skills and is still shining brightly! In fact, she's so talented I want her to re-design my own Web site.

In my 9 years of teaching, Brandi is at the top of my list for all the aforementioned reasons. She would be an asset to have on any project or in any workplace.

Sincerely,

Shan Canfield
